

## **DBTC Covid-19 Policy for 2022 Out of Town Tours (OOTT)**

- 1) All participants of a 2022 DBTC Out of Town Tour must be fully vaccinated against Covid-19, including booster vaccination if eligible, before the tour start date. Tour leader may request to see a copy of the vaccination record at pre-tour meeting. Negative Covid tests are not an acceptable substitute for vaccination.
- 2) OOTT participants shall carry face masks along with them during all tour activities and comply with local mandates regarding mask wearing or other protective measures. If there are no local mandates, all participants are still strongly encouraged to wear a mask when indoors or when social distancing can not be maintained.
- 3) Snacks and beverages provided by the tour leader will be individual packages as much as possible or dispensed by a single person. Hand sanitizing products will be provided.
- 4) Participants may opt out of a paid group activity if they aren't comfortable but no refunds will be given for missed events.
- 5) Participants are encouraged to bring their own disinfectant products to use in hotel rooms, public restrooms, etc.
- 6) Everyone needs to be flexible and patient because conditions and policies that are out of the tour leader's control can change with hotels, restaurants, etc.

By signing below, you accept this policy and signify you are compliant with the requirement to be fully vaccinated against Covid-19 and will follow local mandates.
